Key Features For Education Institutions

- High Quality Video and Audio
- Screen Sharing and Annotation
- Private and Group Chat
- LMS Integration

- Recording and Archiving
- Whiteboarding
- Q&A
- Reporting

Ways you can use EnableX Webinar to enhance your classroom lessons and environment

01 Online Training

Extend learning – either in real-time or on-demand – to home-bound students, overseas students, and working adults by using interactive communicative features like audio detection, screen sharing, recording, and white-boarding. to give students and learners a richer and more interactive educational experience.

02 Home Tutoring

Instantly connect your students and learners with personal tutors or subject-matter experts from anywhere in the world. With features such as multiparty conferencing and screen sharing, learners can learn from their teachers regardless of time and distance.

03 Enhanced Curriculum

Extend the learning experience beyond classroom walls. With the power of live video and augmented with virtual reality, you can enrich a class with virtual field trips such as visiting world-renowned museums or communicating remotely with a paleontologist to learn about dinosaurs.

04 Recorded Lessons For Revision

Record your classroom sessions, and share them for students to watch later, whether because they were absent or just want to revise. You can also create and repurpose video content into easily digested videos that allow students to learn at their own pace.

05 Virtual Seminars

Conduct seminars and lectures to large groups of students. Webinar allows your audience to tune in from anywhere and participate in live Q&A and polling sessions. All Webinars can be recorded for students to watch later.

06 Beyond Classroom

Video Meeting can be used for administrative practices too. Conduct remote parent-teacher conferences, host video staff meetings or use video to train teachers and teaching assistants.

We are offering you

1 month of free usage of EnableX video communications platform with unlimited number of webinars
